

Auto-ignition Temperature: ND

TDG Flammability Class: Non Flammable

Hazardous Combustion Products: Ammonia, nitrates, sulfur oxides, carbon monoxide

REACTIVITY DATA

Chemical Stability: Stable

Incompatibility: Organics, strong acids or alkalies

Conditions of Reactivity: Dry product or fire

Hazardous Decomposition Products: Ammonia, nitrate, nitrites

TOXICOLOGICAL PROPERTIES

Route of Entry:

Skin Contact: Irritation could occur with prolonged exposure to undiluted solution

Skin Absorption: Not known to be absorbed through the skin

Eye Contact: Irritation could occur if solution is splashed in eyes

Inhalation: Very low vapor activity could cause respiratory irritation if sprayed in air ways

Ingestion: Excessive ingestion must occur before health hazard. Young babies/children may react to Nitrate content

Exposure Limits: ND

Synergistic Products:

Sensitization / Irritancy: May cause slight irritation

Carcinogenicity / Teratogenicity / Mutagenicity / Reproductive Effects: None known

PREVENTIVE MEASURES

Personal Protective Equipment:

- ❖ Latex gloves if hands subject to irritation
- ❖ Eye protection for splash prevention

Engineering Controls: N/A

Leak or Spill Procedure: Prevent entry into waterways, sewers, or confine areas that contain spill. Mop up solution & rinse area with water. Rinse out mop.

Disposal: Dispose in non-crop areas in accordance with Federal & Provincial regulations.

Handling Procedures and Equipment: Avoid prolonged & direct contact with the skin.

Storage Requirements: Keep out of reach of small children. Avoid freezing.

Shipping Information: Ship heated service

FIRST AID MEASURES

Skin: Wash with soap and water

Eyes: Flush immediately with large amounts of water

Inhalation: If coughing and irritation persists, contact physician

Ingestion: For large amounts seek medical attention
